THE GREAT
American Discovery
— IS —
Dr. Barber's Diapent.

THIS valuable Medicine is composed principally of Herbs, by whose stimulating and penetrating properties, it is when applied, instantaneously diffused through the whole system, allaying the most intense pain in a few minutes. You have only to try it, when you will be convinced that no preparation ever offered to the public, for the relief of the afflicted, possesses in so high a degree its perfect Anodyne qualities. Its action in all cases is prompt, powerful, and effectual, without in the least endangering the system.

It penetrates the flesh to the bone, relaxes the contracted muscular powers, restoring free use to the joints and limbs, which have been rendered by years of affliction almost entirely useless. It is, therefore, hailed by the suffering as the greatest blessing of the age, and no one would ever allow himself to be without this sovereign balm after he had once witnessed its magic influence over disease, and its potency in relieving pain, however severe. The perfect consciousness of its unquestionable efficacy, by actual experience, makes me bold in asserting its transcendent virtues. By referring to the numerous certificates in the hands of agents, which were given voluntarily and cheerfully, from a sense of gratitude and justice, by persons of the first respectability, (and their statements admit of no doubt,) you will find it has no equal in the whole world, for a speedy, certain, and lasting cure of Rheumatism. It will also cure Neuralgia, Pains in the Side and Back, Cramp, Swellings, numbness, Weakness of Joints, Spine, &c. Also, Dyspepsia, and all Nervous Diseases proceeding from the Stomach. Also *Dr Barber's Corn Resolvent*, a sure remedy for Corns, Bunions, &c. &c. Sold by Dyott & Sons. A. B. & D. Sands, Carr & Petry, Boston, at all dealers of Pure Medicines.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 76 State-Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions and infringement of patents.

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 20 per cent. less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, his visits to the Patent Office, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished, by remitting *one dollar*. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents*.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

SINGER'S
SEWING MACHINES!
THESE machines have long sustained the highest reputation in the United States.—THE FIRST PRIZE—A GOLD MEDAL—has recently been awarded to them at the great Exposition at *the Palace of Industry* in Paris, and thus they have the World's verdict of superiority.

Great improvements have just been added, so that they run without noise, with ease to the operator, at double the ordinary speed; so that

Twice as much Work can be done in a day. The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect style.

As there are very great numbers of inferior (or entirely worthless) sewing machines of the Morrow & Blodgett, Avery, Wilson, Grover & Baker, and other patents, which have been sold, but cannot be used to any advantage, we hereby offer to receive all such machines, and also unimproved ones of our own manufacture, *in exchange for new and latest improved* machines, on liberal terms. All old machines thus obtained by us will be broken up and destroyed. For particulars apply by letter or personally at our New York Office.

N. B. Local Agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.

BANGOR DAILY WHIG AND COURIER.

WEDNESDAY, DEC. 12, 1855

☞ For Railroad, Steamboat, Stage, Express and Public House Advertisements, see Fourth Page.
☞ For Bounty Land notices see First Page.
☞ For "City of Bangor" advertisements see first page.

Since the elections and the adjournment of the "Free State Convention," a "new state of things has arisen in Kansas. The so who have assumed to be the only persons aggrieved have become the aggressors—very disorderly armed themselves in large numbers, and threaten civil war. The telegraphic accounts which have reached us will be found in another part of the paper. *The new state of things may cause the President to take some action.*—Democrat.

What was "the state of things," when hordes of Missouri ruffians invaded Kansas, and with pistol and bowie knife in hand, violently took possession of the ballot-boxes, and elected whom they chose to make laws for the Territory? When violence was thus committed upon the actual settlers, what was *that* but "civil war," and why had not the President as much power *then* to interfere, as he has now—being warned that the invasion was contemplated.—The Democrat asks for chapter and verse of his authority to protect the settlers from violence by the Missouri marauders. It can find none therefor; but when the *free State* men are alleged to have resisted the authority of a spurious Sheriff acting by authority of a pretended Legislature elected by these border ruffians, the Democrat sees at once that *this state* of things "may cause the President to take some action." It is the pro-slavery ox that is now gored.

The Democrat says in another part of the same article:

"The Whig speaks of the fraudulently chosen legislature. Supposing frauds were committed, is the election to be regarded as no election? What severely contested election has ever occurred in the States where the losing party did not charge 'fraud' upon the winning side?"

This evasion does not meet the point at all. The outrage in Kansas to which we have alluded was no ordinary case of mere fraudulent voting. It may be in a degree illustrated by supposing, if it were possible to suppose such a thing, that a lawless [illegible] from New Hampshire, sufficiently numerous to accomplish the object, should invade the State of Maine, and with "force and arms" take possession of the various election precincts, install such officers as they chose over the ballot boxes, and proceed, either by outvoting or driving off the legal voters, to elect a Legislature which would pass certain laws such as the New Hampshire men desired to have enacted. Would the Democrat regard that as a binding election, even if the Governor of Maine *had* issued certificates to some of those members thus illegally chosen but bearing prima facia evidence from some presiding officer, and no contestants appearing?—If the people of Maine, like the people of Kansas, had no other means of reaching the fraud, or of overthrowing the usurpation, would they not be justified in refusing obedience to such a Legislature and in resisting the execution of its laws, by resorting to their original sovereignty? The Democrat asks, "had not the Legislature power to purge itself?" Truly,—but where the usurpers constitute a majority of the body, what sort of a purgation is to be looked for at their hands,—and what a mockery it is for the Democrat to suggest *this* as a means of remedying the outrageous wrong!

But says the Democrat:

"Governor Reeder, a great favorite with the Whig, issued certificates of election to the fraudulently chosen legislature."

As we have said before, some of the members, owing to the absence of contestants and deficiency of proof, obtained certificates from Gov. Reeder—while many, to whom they were refused on the ground of manifest frauds, took their seats and exercised their assumed rights just the same.

The Missourians managed to outvote or overawe the settlers in nearly every one of the seventeen election districts, so that the members who took their seats admitted all the others. But did Gov. Reeder ever acknowledge that Legislature to be a legal or legitimate body. Never, and he denies its legality to this day. In a speech delivered at Easton, Pa., some months ago, he said:

"The territory of Kansas, in her late election had been invaded by a regular organized army, armed to the teeth, who took possession of the ballot-boxes, and made a Legislature to suit the purposes of the pro-slavery party.

Kansas was subdued, subjugated, and conquered by armed men from Missouri, but her citizens were resolved never to give up the fight for freedom, and the independence of their soil from foreign control or interference."

Holding as he does, such sentiments as these, will the Democrat undertake to quote Gov. Reeder, in its defence of the legality of the Kansas Legislature?

The Journal, in its leader of Tuesday, announces that the ten thousand Straight Whigs intend to be "the arbiters of their own fate"—that "their mission is not yet done, and will not be until *through their might*, the State is *permanently* restored to that honorable and prosperous condition in which they left it."

Does the Journal mean the "honorable and prosperous condition" in which the State was when in the hands of the old line Hunker, and pro-slavery democracy? Or that other honorable and prosperous condition when the administration was, by wild-cat votes, thrown under the control of a wild-cat Council, with a Whig Governor nominally at the head of affairs? Which of these "honorable" positions is it, that is to be *"permanently* restored?" According to present appearances, we judge that the Ten Thousand,—or as many of them as can be influenced by the Journal,—will ultimately give in to a pure Hunker dynasty.

COTTON BATTING AND COTTON POLITICS.—The Portland Advertiser remarks in regard to the recent burning of Gov. Hunt's elegant mansion at Lockport, N. Y., that "the accident, it appears, happened from the Governor's too free use of *cotton batting* to guard his cistern from freezing." It will be well if the Governor's partiality for employing the same article in politics does not lead to some similar disastrous result!

NO SPEAKER YET.—*Tuesday Night.* The [illegible] day of the [illegible] brings the number of ballots up to 45, and still there is no election. Banks, on the last three ballots, stood 107, 107 and [illegible]—Richardson holding on to 74 and 75, and Fuller still at 27. Banks yet wants seven votes of an election. Unless Fuller's anti-Nebraska friends [illegible] the way, the plurality rule will probably be adopted, under which it is apparent that Banks must be chosen, unless the improbable case occurs of a union between the intense anti-Know-Nothing friends of the administration upon Fuller, an anti-Nebraska Whig.

THE RAILROAD AFFAIR.—We understand that all the matters embraced in the recent lawsuit of the railroad, as between the P. & K. R. R. Co. and the Contractors, have been amicably settled, and that the payments are made to Messrs. Moor & Dunning in a manner which is convenient to the Company.

As there has been considerable misapprehension in regard to the award, it will be well perhaps to give the following brief statement as furnished us by Directors of the Company.

The amount of the award to Messrs. Moor & Dunning is $180,000, made up as follows:

Moor & Dunning to be relieved of $93,000 [illegible] stock,	$93,000
Bal. of account due them from the Corporation,	41,000
Three engines and cars belonging to M. & D. [illegible] at	30,000
Balance of [illegible]	16,000
	$180,000

The whole amount paid Messrs Moor & Dunning on their contract is $1,016,000, with the addition of the 10 per cent, or $100,000 allowed them, (in September, 1854, we think) for extra work, services in raising money, &c.

And the road is taken as complete.

At Washington on the 6th instant, George M. Weston, Esq., of this city was, on motion of Hon. H. Hamlin, admitted to practice as an Attorney and Counsellor in the Supreme Court of the United States.

The Board of Missions of the Diocese of Maine will be in session to-day and to-morrow, (12th and 13th) at St. John's Church in this city. There will be preaching or other public services during the day and evening. This afternoon there is a meeting and examination of Sabbath School scholars.

Theodore Parker's lecture last evening in the Independent course, was listened to by a large audience. We have a synopsis of it, but a press of other matter compels us to postpone its publication till to-morrow.

Don't forget the Ladies' Levee this evening, at Norombega Hall. Those who attend will [illegible] pleasant occasion.

In our yesterday's notice of the Levee we stated that "the name of the Hall is said to be Norombega now," but the compositor made us say "Kenduskeag."

Hon. John Appleton, it is said, is about to assume the proprietorship of the Argus. The Advertiser remarks that the Buchanan campaign in this State may be considered as commenced.

The Daily State of Maine is to be published as an evening paper, after the 1st of January.

[illegible] FREE TRADE WITH CANADA.—The Hon. Hamilton Merritt of Canada has come out in favor of extending the Reciprocity Treaty to manufactures, and abolishing the Custom Houses on both sides the line. This would be an important step, one which would probably lead to our supplying the Canadians with every description of manufactured goods, and the reciprocity would then be something near equal.

One of the New York papers says:

"Virginia editor being introduced to Horace Greeley on Tuesday evening, a challenge passed, but a fight was prevented by the intervention of a third party."

[illegible] It would require the intervention of a "third party" to prevent Horace Greeley fighting a duel. The Virginian might [illegible] but it would be on his own hook.

"GOOD TIME COMING," by T. S. Arthur, Boston, L. P. Crown & Co. 1855.

The tales and stories by Mr. Arthur are such as we conscientiously recommended to all classes of readers. Although they lay no claim to brilliancy or mere dramatic effect, they are [illegible] well written, and full of interest and [illegible] connected and well woven plot. But the highest recommendation is in the simple earnest truthfulness of the style, and the [illegible] moral and religious precepts which [illegible] inculcate. They are stories, also, of living human nature as we see it around and among us, and the characters are always natural and [illegible] drawn. Although Mr. Arthur is not [illegible] as a great novelist, he is certainly one of the most successful as well as most profuse modern writers. His works are read by the [illegible] mass of the people, and exercise a healthy influence upon the moral sentiment of society. When we say that the work under notice is one of the best yet published from the prolific pen of this author, we have given it a sufficient commendation.

GODEY'S LADY'S BOOK FOR JANUARY, 1856.—A new volume (52d) commences with the year in a style which, (as the publisher [illegible] intended) surpasses all his former efforts. For the amount, variety and excellence of the matter, and for beauty and profuseness of illustration, we can truly say it surpasses any other magazine of the kind which the country affords. Mr. Godey has richly earned the immense circulation obtained by the Book. The subscriber to the Lady's Book receives every year 1200 pages of reading, 15 Steel Engravings, 12 of which are the latest colored fashion plates, at least 720 contributions by [illegible] of the most eminent abilities, and between 500 and 700 Wood Engravings. To families, Godey's Lady's Book can always be recommended, as its stories always inculcate pure morality, and you may look in vain throughout the 51 Volumes for a single [illegible].

Wendell Phillips.

MR. EDITOR:—If the gentlemen who in seeking to gratify the moral and intellectual taste of a large portion of this community, through the course of Independent Lectures, have drawn upon themselves censure from certain critics of the Press, let them also, through the Press, receive an expression of grateful thanks, when they do the people of Bangor so great a service, as to bring "America's most eloquent Orator," in the person of Wendell Phillips, to delight and charm us by his lectures.

The fact that Mr. P. utters some sentiments in which but a small portion of the community sympathise, limits and dwarfs a fame, which, but for this, would be heralded through all lands where the English language is spoken, and be determined as surely as there is appreciation of grace of manner, music of speech, and loftiness of moral purpose in the heart of the civilized world. Objecting as many do, to his sentiments on his great theme, they carefully abstain from listening to him, except when his topic is quite removed from that. But if people desiring to know what this charm of Wendell Phillips is, go to hear him upon such themes as "The Lost Arts," "Street Life in Europe," &c., and then think they have heard the man, they are much mistaken. As well think they had listened to Ole Bull, if he had been playing on a Jewsharp!—or had heard Jenny Lind if she had been thrumming the Piano! They who have listened to Wendell Phillips, on the subject to which he has consecrated Thought, Fortune, Fame, and so much that makes life dear, *know* that they have witnessed, for once in their lives, a spectacle which lifted their own human natures into a purer, higher atmosphere than they ever felt before; and they who *might* have enjoyed this treat, and did not, have reason to wish for a *little longer lease of life, that an error may be yet retrieved.*

Some of your readers, Mr. Editor, will remember the spectacle of native grace and nobility of form and gesture, which a son of the forest, Mahngwadaus, presented to us a few years since. It was difficult to look upon the wonderful advantages which he seemed to have inherited directly from Nature, without wishing to see a man, who possessing those, should add to them the grace of intellectual and christian culture. Without thinking that Mr. Phillips resembles the Ojibbeway Chief in particular features, the impression involuntarily arises in the minds of those who have seen both, that in Mr. Phillips is seen at last, the man who is rich in culture, and yet unspoiled from Nature. And yet a higher pleasure than this arises, as you follow this lecturer on his own path; as you listen to the utterance of sentiments which whether you agree with him or not, you feel that to him is highest truth, truth uttered in no fear but the fear of God; received only from the profoundest convictions of his own soul, and spoken only because he *dares not* be recreant to those convictions. As you gaze upon the lines of his countenance, almost stern with a sense of duty, and the eye, which, seeking from no human eye a response, seems looking out into the far future, which shall yet receive the word, rejected now; you feel that in his honor, faith, and courage, he stands there, himself sublime.

Not often is it given to any audience to rise from such rapt attention, as that with which the close of Wendell Phillips' last Lecture was received. As his voice ceased to utter the noble words of the Poet, so applicable to his own experience; the deep sense of delight, which made dull eyes grow bright and moist, and cold hearts beat quick; the long drawn breath, which had been held in suspense, from fear of breaking the spell of eloquence and music; all attested the depth of an enjoyment, as rare as it was ennobling. Few in that house, at that moment, but would wish to be on the side of the reformer and the martyr; or who did not feel, that though missiles from human hands might have been hurled at him who stood before them, yet prayers from human hearts, warm and fervent, would oftener rise for one, who, in himself, so adorns and ennobles our common nature.

THE EUDORA MURDERS.

The Schooner Ashore and Searched—No Bodies Found, but Full Evidence of a Revolting Double Murder brought to light.

There is no longer any mystery connected with the fate of Captain PALMER, and the mate GILBERT PRATT, of the schooner *Eudora Imogen*. That they were barbarously murdered by the negro cook, GEORGE WILSON, while sleeping in their berths as the schooner lay at anchor in Long Island Sound, between City Island and Hart Island, is now a matter of certainty. It is true that their bodies have not yet been discovered, but the fullest evidence of their awful end has been obtained, notwithstanding the disposition of their remains is yet a subject of conjecture.

At high tide on Thursday night the schooner was hauled about twice her length further on the shore, and at 8 o'clock yesterday morning, when the tide had fallen, Captain Arnold and Mr. Tilley found only two feet of water in her cabin. With the aid of lanterns, they explored the mate's stateroom, (that of the Captain having been broken into from the deck nearly two weeks ago,) the door was locked and the key missing. On breaking it open by forcing in the panels, they found the bed clothes which the unfortunate man had wrapped around him before taking his last sleep. They also discovered several articles of wearing apparel, such as coats, pants, vests and drawers. These they brought to shore and spread upon the beach to dry. On examining them after daylight, the counterpane and a "comfortable" which the mate had used as a blanket, proved to be much discolored with blood.

Again at high tide yesterday morning the Eudora was hauled further upon shore, and nearly righted upon her keel. The cabin being clear of water, the run or hold beneath the cabin was dragged with a hook, and some important articles were recovered. These were five shirts, three belonging to the Captain, and two to the mate, and two pillow cases. A blue flannel shirt, stained with blood, was ripped down the middle, and the sleeves turned inside out, showing it had been torn hastily, and violently from the body of its owner. Two ordinary white cotton shirts were ripped in the same manner, and much blood-stained. A pink-striped cotton shirt was similarly cut, and saturated with blood about the neck. A white woolen shirt was also ripped, and crimsoned with gore. The pillow cases were also dyed with blood. Stowed away among some coal on deck, a pair of blue over-alls were found, which undoubtedly the murderer wore, either when engaged in the [illegible] deed, or subsequently in cutting up or otherwise disposing of the bodies.

Before the time of low water the means which the villain had used to scuttle the vessel were revealed. He had bored four holes in the forecastle, on the starboard side, between high and low water mark, with an inch and a half auger.—When the tide fell below these holes, the water in the vessel began to rush out with great force, and the streams on jets rather, continued for hours. Plugs were afterwards driven into them, it being expected that the schooner would float herself at the next tide. The negro must have remained on board some twelve or fifteen hours after he had bored these holes, as it would take little more than that time to sink her, with the volume of water that was thus admitted, and she went down shortly after he quitted her in the yawl-boat.

The cabin yesterday presented a ruinous and melancholy appearance. The murderer had locked all the doors, and removed all the keys; probably he flung them overboard. To effect an entrance into the state-rooms, the panels of the doors had to be burst in.

As the search through the other portions of the vessel was prosecuted, it became evident that the bodies were not on board. The wretch had stripped them of their clothing, probably for two motives. One, lest they should be the easier fished up by grappling hooks; the other, lest the cloth should lead to their recognition. Generally, when a body has been many days in the water, recognition by the features is impossible, and the apparel alone enables it to be identified. Whether both or either of these motives operated on the murderer, of course it is impossible to tell.

The mystery attaching to the schooner was only so far solved yesterday, as the fate of the missing men was ascertained. Where their remains are, is as much a mystery as ever; some of the City Island people think that he towed them off in the yawl, on the night of the 22d November, and sunk them at a distant point.

Others think that he has buried them somewhere on the beach at Hart Island, but it seems more probable that they will eventually be found on or near the spot where the schooner sank.

The excitement yesterday was very great on the discovery of the shirts and other articles. Emphatic were the curses bestowed on the negro. Various modes of punishing him were suggested; one which found favor with many was, that he should be suspended by his wrists until he starved to death. Hanging, or even burning alive, was too expeditious an exit for him. That he should escape conviction altogether, because the bodies could not be found, was unanimously declared to be a monstrous outrage upon all justice. And yet he cannot be tried for murder unless they are found. It cannot be even proved that he scuttled the schooner, and the worst, in such case, that can happen to him, is imprisonment for robbing her.

He remains at White Plains Jail, well fettered and well guarded. His demeanor has greatly altered since he was first arrested. He maintains no more the bold defiant front which he presented to every one who questioned him on the subject of his guilt. Dejection and extreme depression are doing their work with him, and it is the opinion of gentlemen who visit him daily that in a few days he will be brought to confess.

From the Philadelphia Times.

Another Self-Madness, and a Method in it.

On Wednesday last, a neatly dressed, very pre-possessing, and prettily spoken woman, somewhere between sweet sixteen and twenty-five years of age, drove up to the door of the Insane Hospital, over which Dr. —— presides, and inquired for that gentleman. She was ushered into the reception room, where she awaited the coming of the Doctor with an air of *nonchalance* which rather fascinated the servant, who looked upon her with eyes of admiration and unfeigned pleasure.—When left alone she amused herself—woman always will—in gratifying her curiosity by inspecting the various articles in the room critically and thoroughly. The doctor being announced, she received him with one of those bewildering smiles which some women know so well how to bestow, and whose influence no man of feeling can resist. The Doctor welcomed her with more than his usual warmth, and soon learned the object of her visit.

She had come, she said, with a glance full of melancholy, and a tone of more than woman's tenderness, to ascertain of the Doctor in person, whether she could secure private quarters for her husband, who was subject to intense fits of aberration of mind, but whose conduct towards her, bitter and cruel as it was, could not alienate her love for him, which was the all-prevading passion of her soul. He had grown so violent of late that she wished to have him secured from violence to himself, as well as to her, (and here the charming creature wept for some moments,) and if she could make an arrangement with the Doctor, she urged that it should be kept as private as his most secret thoughts, and her husband beyond the scrutiny of visitors. And she said her heart would break, she knew it would, and wept bitterly and long.

The Doctor, as all who know his kind and tender-heartedness will readily imagine, was not insensible to the touching recital of his visitor, and with that frankness which always characterizes him, promised to give her husband a private apartment and his special care; and also to shield him from the gaze of curiosity-seekers who run down public institutions.

The lady was not long in arranging terms, intermingled with tears; she was not long in settling the details of her husband's confinement; she was not long, in short, of taking her leave. And as she stepped into her carriage, aided by the kind hand of the Doctor, she turned her beautiful face towards him, and cast upon him a glance that was full of tenderness and solicitude, and inspired him anew with admiration and pity.

The carriage drove away, the Doctor's eyes following, amid the clouds of dust which followed in its wake, until it was entirely lost to view. Down to the bridge, along the crowded thoroughfare, over the pebbled way of Chestnut street, to a fashionable, if not the fashionable jewelry establishment of our city, the carriage passed, its sweet and solitary inmate glancing out and smiling within, and growing radiant with a thought that requires another paragraph to learn.

She alighted, and glided into the bazaar of gold and silver and precious stones with all the stateliness of a queen. One or two of the gentlemanly attendants ran to learn her wish. She wanted to select a set of silver ware, not too elaborate in design of workmanship, nor yet too plain—something neat, tasteful and beautiful. The various patterns were shown, and a set valued at $500 was selected by the lady of the stately tread. She desired the articles put up, a bill made out, and she would settle it. Her wishes were complied with, and the lady took out her elegant porte-monnaie, but, alas here were but about $40 in it. She had picked up her wrong porte-monnaie, she said, with bewitching sweetness and she was vexed at her stupidity. She, however, could arrange it. She was the wife of Dr. ——, the principal physician of the Insane Hospital, and she desired her attendant to accompany her to that place, where she would pay him at once. Who could resist such a request from a beautiful woman—a request spoken as much with the eyes as the voice. Not the clerk, certainly.

The two got into the carriage together, and back it whirled to the Hospital. The lady jumped from the carriage, and was warmly greeted by the Doctor, who was at the entrance.

"Doctor, this is my husband," said she, with an air at once sweet and sorrowful.

The poor attendant stared. He was struck aghast. He could not fathom her meaning.

"What did you say, madam?" he stammered, as he best could; "what did you say?"

"Doctor, this is my husband; please take him in charge."

"The devil, madam, I'm not your husband; what do you mean?"

Bursting into tears she sobbed aloud. "He has another spasm; he has another attack.—Oh! Doctor, if you have pity in your soul, secure him, and save yourself and me from violence."

In vain the poor fellow attempted to explain. He was hurried along the corridor and into a room, and confined securely—the woman all the while following close behind weeping as though her heart would break. The Doctor and the lady returned to the reception room, and the latter, after giving the other an outline of the peculiarities of her alleged husband's attacks, together with some directions in reference to the care she desired to have bestowed upon him, she left, promising to come again in a few days. And away whirled the carriage, the silver ware, and the lady, neither of which has been heard of since.

The poor attendant was confined three days before any one about the establishment could be induced to convey a letter to his employers, who all the time were suspecting his honesty, and preparing to advertise him in the newspapers. Upon the receipt of the letter, it did not take them long to discover that they had been sold most brilliantly; and upon their appearance at the hospital, it did not take the Doctor long to discover that he had been sold decidedly; the poor attendant was satisfied, upon his arrival at the hospital that he had been sold most sorrowfully, indeed. And here, we think, we will end the story, which has been talked over in fashionable circles for the past three or four days.

TERRIBLE CONFLAGRATION AND LOSS OF TEN OR TWELVE LIVES.—Between the hours of 12 and 1 o'clock last night, our citizens were startled by the alarm of fire, which proceeded from the packet George Collier, at the lower packet landing. We learn that as the steamer was landing, before her lines were fairly made fast, a fire was discovered by the mate issuing from a small closet immediately under the steps that loose down forward, which spread with such awful rapidity that in less than five minutes the whole of that large boat was enveloped in almost an entire sheet of flames.

Captain Burdett, who was in command, left the roof and went below to the cabin, and gave the alarm. He immediately went to the ladies' cabin to save the ladies, all of whom were asleep, and tried to get them out forward, but the flames and smoke drove them back, leaving them no chance to escape but by a small flight of steps near the water closet, at the rear of the boat. By almost superhuman efforts he succeeded in saving all of them and getting them off on the wharf boat. The male passengers and a portion of the officers and crew had to save themselves by jumping off, some into the river, and others to the lower deck of the wharf boat.

The George Collier had landed on the inside of the magnificent packet Mayflower, her bow extending about midship of the latter, and soon that steamer was also enveloped in flames.—The flames also extended to the bow and cabin of the fine wharf-boat Mary Hunt, and in less than ten minutes from the first outbreak of the flames the three boats were one mass of fire, the flames towering high above the tall chimneys of either boat.

The most mournful part of the disaster is the fact that some ten or twelve lives are supposed to be lost, some of them by being burned, and others by being drowned after jumping into the river.

FIRE AT KENDUSKEAG.—On Saturday evening last, about 10 o'clock the stable owned and occupied by Ozgen Stockwell, Esq., in Kenduskeag, was discovered to be on fire, and so far advanced that nothing could be saved. The stable, together with two horses, one cow, several tons of hay, a wagon, &c., were destroyed. It was only by the most active exertions of the people called together by the alarm, that his tavern house was saved.—*Journal.*

ORIGIN OF OUR DECIMAL CURRENCY.—A letter has been discovered recently, in this country from a venerable gentleman who came from Wales over fifty years since. In November 1805, he became acquainted with Mr. Christian Heiss, grandfather of John P. Heiss, formerly of the firm of Ritchie & Heiss, of the Washington Union, now of the New Orleans Delta. Mr. H. was then fifty-one years of age and had in his youth been wagon-master through the whole of the Revolution in Washington's army, or it may be in the Pennsylvania line, which formed a portion of it. On one such occasion, while in conversation, it was remarked how much better the Americans managed their currency than other nations, in the decimal form of it, when Mr. Heiss immediately replied that it was so, and that the author or inventor was the Rev. Samuel Jones, D. D., of Lower Dublin. We have never heard this question mooted before, but we have no doubt that the information imparted by Mr. H. was most reliable, and it involves an interesting historical incident.

An immense unpublished MSS. of Cotton Mather, his illustrations of the Sacred Scriptures, is stored in the Library of the Massachusetts Historical Society, where it is shown in six volumes folio, of rough-edged whity-brown foolscap, written in the author's round exact hand in double columns. Its magnitude and forgotten theology bidding defiance to the enterprise of editors and publishers. Portions of his diary, a painful phrenological curiosity, are also to be found there, including the leaf from which the invisible hand of witchcraft plucked a piece, according to his declaration before his eyes.

SAD ACCIDENT.—A son of Mr. William Ault, aged about 13 years, while at work in the factory at Yarmouth, had his hand caught in the "picker" and before he could clear himself his right arm was ground to a pomace nearly to his shoulder.

The doctors were soon in attendance and amputated his arm, and the unfortunate little lad is doing as well as could be expected.—*Advertiser.*

ARRIVAL OF THE

Northern Light!

Assassination of a U. S. Marshal and a U. S. Collector.

Battle with the Indians—The Troops Repulsed!

News from China—An army of 30,000 Amazons!

NEW YORK, 11th.

The Northern Light arrived at 4 o'clock.

Gen. Wm. H. Richardson, U. S. Marshal, was assassinated at San Francisco the night of the 17th, by an Italian gambler, named Cora.

Hon. Isaac B. Hall, Collector of the port of Monterey, was murdered near San Louis Obis- po, together with a companion named Thomas Williamson.

The murder of Gen. Richardson caused in- tense excitement in San Francisco and strenu- ous efforts were made by parties to get the as- sassin out of the hands of the law for the pur- pose of lynching him, but their attempts were frustrated by the fire-arms of the Sheriff.

Mr. Williamson, who was killed, with Collec- tor Wall, was the Assessor of Montgomery Co. The murderers of the latter gentleman were supposed to be a party of Mexicans under Gar- cia. Pursuit was made by a party of Ameri- cans, under the Sheriff of the County. The murderers were overtaken at Salina, when a fight ensued, during which two of the Sheriff's party were killed.

Captain Archibald McRae of the revenue cutter McLean committed suicide on board of his vessel, during a temporary fit of insanity.

Indian difficulties in the north continued. A battle had been fought at Rogue river between 300 Indians and 400 regulars under Captain Smith of Fort Lane. The fight lasted nine hours, when the troops were obliged to retreat with a loss of 18 killed and 25 wounded. Gen. Wool had proceeded to the scene of trouble.

Dates from Salt Lake are to October 11th.— Difficulties had occurred between the Mormons and the Utah Indians. Several Mormons had been murdered.

The banking-house of Sanders and Brennan of San Francisco, had failed. Liabilities, $80,- 000. Assets nothing.

Some rain had fallen, and there was much snow in the mountains, but the winter rain had not set in. The miners were waiting the rainy season, and in consequence but little gold was coming in.

Trade was dull and prices were declining.— Flour rather firm—domestic $8,50 a 9; Galle- go 14; mess beef 20; mess pork 38; butter 45; crushed sugar 11½; coffee 13½.

Benjamin Loring, formerly of Worcester, was drowned near Sacramento.

FROM CHINA.

Dates from Hong Kong are to Sept 18th.— An army of imperialists 1050 strong was de- feated by the rebels, near Canton, on the 28th of August. Subsequently, another army of imperialists 10,000 strong, led by the Governor of Waichoo, was defeated by a rebel chief with an army of 30,000 women.

The allied fleet in the China seas were inact- ive.

THE SANDWICH ISLANDS.

Dates from the Sandwich Islands are to Nov 3d. There were 40 whale ships at Honolulu, and 16 at Hilo. They had been generally suc- cessful. Business was dull and money scarce.

A difficulty had occurred between the gov- ernment and the American Commissioner, aris- ing out of punishment inflicted on an Ameri- can seaman by a magistrate.

FROM NICARAGUA.

The news is not very important. Padre [illegible] French had resigned his seat in the cabinet, and been appointed Minister Plenipotentiary to the United States, with extraordinary powers.

Col. Fabens had been appointed Director of Colonization.

Capts Rawle and Williamson had departed for New Orleans, on government business.

Col. Ewen had gone to California, to raise money and men.

ROXBURY ELECTION.—Capt. John S. Sleeper, formerly of the Boston Journal and now senior proprietor and editor of the Portfolio, nomin- ated on a "Liberal Union" ticket, was elected Mayor of Roxbury, on Monday, by 802 votes against 477 for the "American" candidate, and 29 for a "Citizens'" candidate.

FROM KANSAS.—The St. Louis Intelligen- cer of the 7th instant has the following des- patches:

Weston, Dec. 6th.—By an express, which stayed at Lawrence night before last, we have the following account of matters from the seat of war: They number at Lawrence about 800 men, armed chiefly with Sharp's rifles. They say they can raise 300 more men if necessary. They are willing that Jones should come peace- ably and search for the prisoners. They assert that they wont commence a fight, but will act on the defensive to the very last. Men and women are armed with Sharp's rifles. Gener- al Pomeroy is now at Lawrence, having escaped from his captors.

THE IMBROGLIO IN CENTRAL AMERICA.— The Washington correspondent of the New York Times writes as follows:

Nicaragua seems likely soon to be the scene of a terrible war—and not Nicaragua alone, but all the States of Central America. Official statements represent that Costa Rica, San Sal- vador and Guatemala are all arming them- selves with a view to expelling Colonel William Walker from the Isthmus; and if the war commences, it will be a serious affair to all con- cerned. Mr. Wheeler's recognition of Wal- ker's government is embarrassing to the admin- istration, under these circumstances, and I should not be at all surprised at his early recall.

Meantime, there is no truce between Colonels Walker and Kinney. The last advices from there represent that Kinney sent word to Wal- ker that he would recognize him if he in turn would recognize Kinney's Shepherd Grant.— Walker replied that he would not do so, but that if Kinney did not clear out he would hang him. Under these circumstances it will not be surprising if Kinney should join the native forces against Walker in the war which seems now to be so imminent.

It appears that Walker's execution of Gen. Corral was little short of unmitigated murder. Col. Wheeler, our Minister, acted the part of a fillibuster and a drunken rowdy. If Mr Espi- nosa (just arrived at New York) is to be be- lieved. He says that Wheeler was seen on the 12th of October, the day on which Granada was taken, on the door of his house, *giving brandy to Walker's men, he,* (Wheeler's) *self being at the time among Walker's men armed with a sword, and shouting as one of them.*

HARRISON'S

Columbian Tonic Stimulant

WILL cure all diseases caused by prostration of digestive power. Its action is immediate, as a stimulant to rouse the vital energy to its healthy force, as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic* will cure the most severe cases of these and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure, in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

The alcohol and opium inebriates will find it a perfect substitute for both these disease-engendering and health-destroying articles. It is an exclusively vegetable composition, and a pure tonic and stimulant, without the slightest diseasing property in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action and natural desire. It is delicious to the taste, and grateful to the sensibilities or the stomach. It may be taken in its present form, a *rich syrup*, or in water, making a *delightful beverage*. As a daily beverage, its deliciousness is *unequalled* by any fermented or alcoholic preparation. It prevents as well as cures disease. It is applicable in all climates, in all seasons, to all diseases, and in all conditions of life, and from extreme of infancy to extreme of age. Price $1.

HARRISON'S

Columbian Vegetable Emetic

Will withdraw and expel all diseased matter, solid, fluid, or gaseous, from all parts of the system. Besides its emetic properties, it is expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organism of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Pleurisy, and every other acute disease. It has great remedial power in all Chronic diseases. In both acute and chronic diseases, assisted by the invigorating and sustaining power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Principles of treatment and directions for use accompany each medicine. Price 50 cts.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. General Debility, Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

G. W. STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, Creates an appetite, [illegible] invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT! It needs no other recommendation. No family will be without it after they have properly tested its merits. Reader if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty; and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE of MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its operation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of humor, and nearly one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 2, 1854.

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. E. B. Hayes, of this city, and being personally acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies in the market, this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparillas, Salves, &c. &c.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us as performing all it claims.

A S BUKER, A W STEARNS

It removes all those vexatious Pimples, Eruptions and Moth or Mildew from the face, leaving the skin perfectly soft and smooth, adding greatly to the beauty of complexion. Never, in no case, will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat and from the Head and Eyes, by an outward application. It improves the sight wonderfully, where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten year's trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted, referring any who may still doubt, to my "Memorabilia," or Practical Receipt Book for Farmers and Families, to be had gratis, of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt. Daniel Abbott, Brooklin, Maine, July 10, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S.C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters," in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day I was a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea, and reside in this place, where you should have an Agency, as you could sell large quantities of it."

Wm. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, say: "We herewith send you a certificate of a cure performed by the use of only one bottle of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I would state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last she was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them on her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills, will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most certain Purifier of the Blood in use.

One of Radway's Regulators is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulators

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. These pills can be taken for any length of time with the same safety to the constitution; for instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action. They are not drastic, and never give pain as most purgative pills do. They stimulate the liver without endangering the patient with salivation, as mercurial pills do, containing no mineral in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaints, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder,

Female Complaints,

(Leucorrhœa, Fluor Albus, Whites and Irregularities of all kinds.

Bilious Diseases,

Bile on the Stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

Dr. Ira Warren's

Compound of Pure Cod Liver Oil, Lime & Sugar of Milk.

The great value of Cod Liver Oil as a medicine in Consumption is now generally admitted. It corrects a bad assimilation the primal defect in this disease, by initiating the growth of cells—the [illegible] resulting, according to Dr. Barnett, from the union of [illegible] particle [illegible] with albumen, under the quickening force of vitality. The Phosphate of lime has been proved to promote the same great end, throughout both the vegetable and the animal world.

The Sugar of Milk, manufactured solely from the whey of Goat's milk, being a supporter of respiration in weak lungs, and a powerful affinity for oxygen greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil, and supplies, but a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in Throat and Lung diseases, Dr. Warren resorts directly to the fisheries for pure Oil. The excellence of this combination will be at once appreciated by the medical profession, and a trial will commend it to the people generally.
